EDUCATION

KOÇ UNIVERSITY

B.Sc. Computer Engineering

Istanbul

2023

KOÇ UNIVERSITY

B.Sc. Mechanical Engineering

Istanbul

2022

EXPERIENCE

DAIKIN TURKEY

Istanbul

Business Analyst

Nov 2024 – Present

- Analyzing business requirements across multiple departments to identify gaps and digitalization opportunities, proposing automation and low-code based solutions
- Translating business needs into functional requirements, workflows, and use cases, coordinating closely with IT and BI teams for accurate implementation
- Designing and supporting ERP integrations, automated data flows, and RPA-driven processes to improve data consistency and operational efficiency
- Acting as a liaison between business units, IT teams, and end users throughout analysis, testing, and rollout phases
- Managing test scenarios and user acceptance testing, ensuring smooth production releases and stakeholder alignment
- Supporting user adoption through documentation, coordination, and ongoing improvement feedback

VALENS RESEARCH

Cambridge, MA (Remote)

Business Systems Analyst

Apr 2022 – Aug 2025

- Led end-to-end business analysis and solution delivery for custom digital initiatives, from requirements discovery to production rollout
- Designed and implemented low-code web applications, automated workflows, and system integrations using SQL, Python, APIs, and cloud-based services
- Migrated manual and Excel-based processes into structured systems, enabling automation, reporting, and improved data reliability
- Built scalable databases, dashboards, and automated reporting solutions to support operational and decision-making needs
- Coordinated testing, UAT, and release activities, ensuring delivered solutions met business requirements and usability expectations
